Conversational UX Designer

Buenos Aires, Argentina

Conversational UX Designer specialized in conversational experiences and AI-powered and agent-based systems. I design interactions and user journeys based on user and business needs, combining conversational design, conversation analysis, and experience evaluation.

EXPERIENCE

CONVERSATIONAL UX DESIGNER

BeBot

2022 – Present

- Design end-to-end conversational experiences, defining personality, interaction flows, and dialogue.
- Design the conversational logic behind agentic systems, defining agents' mission, objectives, instructions, and tool interactions.
- Conduct heuristic evaluations, conversation analysis, and metric analysis to identify friction points and opportunities for continuous improvement.
- Build and prototype conversational experiences using platforms such as Voiceflow, Botmaker, and ElevenLabs.
- Lead project meetings and present progress to multidisciplinary teams and stakeholders.

ACADEMIC DIRECTOR

CUXa

2025 – Present

- Lead the academic strategy and curriculum development for the Conversational UX Designer course.
- Deliver live classes for B2B and B2C audiences.
- Deliver in-company training and participate in training sessions for clients including Movistar Argentina, Sopra, and Emtelco.
- Plan the structure, objectives, and content of each module.
- Create educational materials for different courses.

EDUCATION

Diploma in Product Management

Universidad Tecnológica Nacional | 2026 - Present

Master's Degree in Narrative Journalism

Universidad de San Martín | 2021 - 2023

BA in Literature, specialization in Linguistics

Universidad de Buenos Aires | 2014 – 2020
